

RATCHET STRAP ANCHOR

Convenient and saves time as the strap does not need to be unwound before deployment just pull the hook and go.

Release the ratchet sprocket and retrieve the strap in one simple motion (Just like the strap on your Autobrace2), using the same handle.

Compact for ease of handling and storage.

No Need To Extend The Strap Before Rewinding.

The Auto Brace 2 Ratchet Strap Anchor
Has A Patented Rewind System.

Simply Release The Tensioning Sprocket , Attach
The Handle From Your Auto Brace 2 Strut And Rewind.
